

## Using The Speaker's Bureau

Our dedicated professionals are pleased to share their knowledge and expertise with the community they serve. We do ask that your group meet the following criteria:

- Is within the Lewistown Hospital service area, including Mifflin, Juniata and parts of Huntingdon and Snyder counties
- One contact person is available to meet with the speaker the day of the presentation
- Your request is made four–six weeks in advance

Contact the Lewistown Hospital Community Relations Office for assistance with selecting a program, for more information or to arrange for a speaker.

At Lewistown Hospital

Connections *with* the Community

## Keeping You Connected

The Lewistown Speaker's Bureau is designed to provide expert information on a variety of health and wellness-related topics to community groups. Our professionals —doctors, pharmacists, nurses, social workers, therapists, information technology specialists, dental specialists — are available to address both clinical and non-clinical subjects at no charge to your club, church or organization.
